Java Backend Developer — 0–1 Year Experience

+91-8356846225 ⬥ riya.hulule@mitaoe.ac.in

## PROFESSIONAL SUMMARY

Aspiring Java Backend Developer with hands-on internship experience in Spring Boot, REST APIs, and microservices. Proficient in SQL, MongoDB, and AWS cloud services. Strong understanding of OOP, data structures, and design patterns, passionate about building scalable, efficient, and reliable backend systems.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | Java 8/11, SQL, JavaScript, HTML, CSS |
| **Frameworks** | Spring Boot, Microservices, REST APIs |
| **Databases** | MySQL, MongoDB |
| **Tools & Cloud** | AWS (EC2, S3, CloudWatch, Auto Scaling), Git, Maven, Postman, Kafka, Salesforce |
| **Concepts** | OOP, Collections, Microservices |

## EXPERIENCE

**Enzigma Software Pvt. Ltd.**                                             Jan 2025 – Aug 2025
*Software Trainee*

· Participated in the NoKodr project, contributing to bug fixes and improving application stability.
· Received training on Salesforce and applied knowledge to integrate CRM workflows with backend services.
· Developed and optimized backend modules using Java, Spring Boot, and SQL.
· Collaborated with cross-functional teams to implement new features and ensure smooth deployment.

**Fourise Solutions**                                                        Jul 2023 – Dec 2023
*Full Stack Intern*

· Worked on a real e-commerce website project, developing backend APIs using Java and Spring Boot.
· Explored and integrated MongoDB for database management and optimized data queries.
· Gained hands-on experience in full-stack development, including authentication, order management, and backend services.

## PROJECTS

- **User Management Service**: Developed a backend application using Java 8, Spring Boot, and Maven, connected to MySQL. Implemented full CRUD operations with custom repository methods. Secured APIs using Spring Security with JWT-based authentication and role-based access. Designed scalable, maintainable RESTful endpoints and optimized database interactions.
  **Skills:** Java 8, Spring Boot, Spring Security, JWT, Maven, MySQL, REST API, CRUD operations, Custom Repository Methods
  **GitHub:** https://github.com/RiyaHulule/USER-MANGEMENT-SERVICE

- **Hotel Rating Microservice System**: Built a microservice-based application using Spring Boot, connected to MySQL and MongoDB. Implemented APIs to fetch user-specific hotel ratings and details, and designed services for distributed data handling. Integrated an API Gateway for routing and ensured seamless communication between microservices for a scalable architecture.
  **Skills:** Java 8, Spring Boot, Microservices, API Gateway, MySQL, MongoDB, REST API, Distributed Systems, Spring Security, RESTful Design
  **GitHub:** https://github.com/RiyaHulule/HOTELRATING-MICROSERVICE-SYSTEM

## EDUCATION

**B.Tech, MIT Academy of Engineering, Pune**                    2021 – 2025
CGPA: 8.7

**HSC, S.B.N.E College**                                        2019 – 2020
Percentage: 82%

**SSC, St. Columba Girls School**                               2017 – 2018
Percentage: 86%

## CERTIFICATIONS

- Java Programming (PCAP)

- AWS Cloud Computing
